INTERNATIONAL AS MATHEMATICS

(9660/MA02) Pure Maths, Statistics and Mechanics Unit PSM1

Thursday 17 January 2019 07:00 GMT Time allowed: 1 hour 30 minutes

Materials

- For this paper you must have the Oxford International AQA booklet of formulae and statistical tables.
- You may use a graphics calculator.

Instructions

- Use black ink or black ball-point pen. Pencil should only be used for drawing.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- There are three sections to this paper.
- The maximum mark for this paper is 80. There are 40 marks for **Section A**, 20 marks for **Section B** and 20 marks for **Section C**.

Advice

- Unless stated otherwise, you may quote formulae, without proof, from the booklet.
- Show all necessary working; otherwise marks may be lost.

8	Poyntz Ltd is a	company with	1000 employees.
•		oompany mar	1000 01110103000

The company has three departments: Manufacturing, Delivery and Services.

Each employee works in at least one of the departments:

650 work in Manufacturing

300 work in Delivery

100 work in Services

None of the employees working in Services also work in Manufacturing or Delivery.

8 (a) Describe the relationship between the event M, that an employee works in Manufacturing, and the event S, that an employee works in Services.

[1 mark]

Do not write outside the box

8 (b)	An employee is selected at random.	Do not write outside the box
	Find the probability that the employee:	
8 (b) (i)	works in both Manufacturing and Delivery; [3 marks]	
	Answer	
8 (b) (ii)	works in Manufacturing given that the employee works in Delivery. [2 marks]	
8 (b) (ii)	works in Manufacturing given that the employee works in Delivery. [2 marks]	
8 (b) (ii)	works in Manufacturing given that the employee works in Delivery. [2 marks]	
8 (b) (ii)	works in Manufacturing given that the employee works in Delivery. [2 marks]	
8 (b) (ii)	works in Manufacturing given that the employee works in Delivery. [2 marks]	6
8 (b) (ii)	works in Manufacturing given that the employee works in Delivery. [2 marks]	6

	Ben is an athlete who regularly takes part in races.
	Let X be the random variable that takes the value 1 if Ben wins a race and takes the value 0 if he loses a race.
	The variance of X is 0.16
(a)	Find the possible values of p , the probability that Ben wins a race.
	[3 marks
	Answer

(b)	Ben takes part in 10 races. The random variable Y represents the number of races he wins.	Do not write outside the box
	Given that $p < 0.5$, find, giving your answers to three significant figures:	
(b) (i)	the standard deviation of Y ;	
	Answer	
(b) (ii)	the probability that Ben wins more than one race.	
	[2 marks]	
	Answer	
		7
	(b) (i) (b) (ii)	(b) Ben takes part in 10 races. The random variable Y represents the number of races he wins. Given that p < 0.5, find, giving your answers to three significant figures:

	Section C
	Answer all questions in the spaces provided.
	The acceleration due to gravity, g , should be taken as 9.8 m s ⁻²
	A basketball has mass 0.6 kg
	The ball is released above a horizontal floor and reaches a maximum height of 1.2 metres after its first bounce.
	At this instant a player strikes the ball vertically downwards with his hand. Assume that the time the player's hand is in contact with the ball is negligible.
	The ball leaves the player's hand with a speed $u \text{ m s}^{-1}$, and hits the floor with a speed of 6 m s ⁻¹
	Model the ball as a particle and assume there is no air resistance.
(a)	Find the value of <i>u</i> , giving your answer to 2 significant figures. [3 marks]
	u =
	<i>u</i> –

10 (b)	Find the magnitude of the impulse exerted on the ball by the player's hand, giving you		Do not write outside the box
